RICH GLADS

PURE CREAM

MARION C. RICH

Wayne County

MARION, NEW YORK

FOREWORD

We appreciate the interest that growers, exhibitors, and hybridizers have taken in our introductions. They are listed by a number of catalogers and are winning many blue ribbons at the shows. It is our sincere endeavor to produce the best for exhibition and commercial work. Most of our varieties are particularly good for hybridizing: Black Cherry, Bonnie Lass, Bronze King, Garden Gold, Garnet Glow, Jaunty, Pure Cream, Orange Ruff, and Sally Rose have all given excellent seedlings, including two which have been Grand Champions.

We have propagated most of our varieties by selection for several years, and this selected stock is disseminated when available. Our fields and bulbs are inspected by the N. Y. State Dept. of Agriculture. Bulbs are washed and quickly dried after digging, and all are dusted with DDT after cleaning. We take great care to furnish the cleanest, healthiest stock possible. We will replace or make an adjustment on any stock found not true to name. All measurements given are of our field grown spikes, with no irrigation. The number following the variety in our list denotes the N.A.G.C. size and color classification: 100 and 200 Miniature and Small; 300 Medium; 400 Large; and 500 Giant.

10 BULBS AT 8 TIMES THE PRICE OF ONE.

5 AT ONE HALF THE 10 PRICE.

NO ORDERS LESS THAN \$3.00 PLEASE.

ALL EXPRESS SHIPMENTS WILL BE SENT COLLECT.

Retail orders are sent Parcel Post, postpaid, when safe.

1956 — RICH ORIGINATIONS — 1956

ORANGE RUFF — Sdl. No. 74B1 (Geno x Garden Gold) Class 524. 80 days to bloom. Orange Ruff is one of the heaviest ruffled and textured glads in existence. It is also proving to be a great parent, transmitting its texture and ruffling to many of its seedlings; one of these, Party Ruffles, was Grand Champion at P.G.S. Show at Kittanning, Pa., August 1955. Orange Ruff's pollen is very potent, making very large seed pods, and it will set seed well itself.

The color is pure deep orange, with no fading or burning in the sun. While its flowerhead is a little short for exhibition, it makes this up in its beauty, and usefulness as a parent and for floral work. Its field height is about 48" with 22" flowerhead, 5½" blooms, 17 buds, and 7 open. Excellent placement and good attachment. Bulblet production is good, and germination fair.

EACH — Any size \$2.00 Bulblets 10 for \$2.00

PURE CREAM — Sdl. No. BL8-2 (Bonnie Lass Chance) Class 306. 70 days to bloom. This is a ruffled pure cream with slightly deeper flushed throat and cream stamens. Its medium sized wide open blooms of immaculate color, are of excellent texture, with fine facing, spacing and attachment. It has a strong slender stem, always straight, and is a healthy grower. Pure Cream is a very fine parent for ruffled whites, creams, light yellows, and some lavenders, in the 300 classes, with some 200 size. Field performance is about 45" tall, 22" flowerhead, 4" blooms, 22 buds, and up to 8 open. Bulblet production is good, and germination excellent. Award of Merit E.S.G.S. August 1955.

EACH — Any size \$2.00 Bulblets 10 for \$2.00

1955 — INTRODUCTIONS — 1955

BRITE FIRE — (Sport of Birch Red) 536 Class. 90 days to bloom. Brite Fire has the same brilliance and purity of color that is found in its parent, but is a blazing shiny scarlet. It is a more vigorous grower than Birch Red, and has a somewhat longer flowerhead, about 60" tall, 24" flowerhead, 5½" blooms, 19 buds, 7 open. An excellent commercial or show prospect. Good bulblet production and germination. Commendation Award E.S.G.S. 1952.

EACH — L. \$1.00 Med. 75c Sm. 50c Blts. 10/\$1.00

JAUNTY — (Wedgwood x Evangeline) 362 Class. 65 days. Jaunty is a very beautiful, clean medium rosy pink, with a cream throat and wide open fluted and ruffled florets, carried on tall strong slender spikes. It won many awards as a seedling including The American Home Achievement Award, Pre-Introductory three spike awards at Rochester in both '53 and '54. Best Seedling at Geneva, N. Y. and Best 300 Seedling at Pa. State Show, '54. 6 Blue Ribbons at E.S.G.S. Shows in '55, including R. I. Division winner. It grows about 52" tall, 25" flowerhead, 4" blooms, 20 buds, 7 open. Excellent attachment, facing and spacing, very green foliage and is an easy cutter. Bulb production and germination are excellent. It is a fine seed parent and ideal for arrangements and basket work.

EACH — L. \$1.00 Med. 75c Sm. 50c Blts. 10/\$1.00

SALLY ROSE — (Rose O'Day x Evangeline) 562 Class. 75 days. A clear glistening salmon rose, with a small orange feather and white center line on a single lip petal. The blooms are lightly ruffled, with wavy pointed petals, good texture, excellent attachment, facing and spacing on an always straight stem. A very vigorous grower, easy cutter and excellent propagator. In the field it grows about 52" tall, with eight 5½" blooms open, on a 24 bud spike, with 26" flowerhead.

In 1955, its first year, Awards in N. Y. State were; Reserve Champion, 6 Blue Ribbons, a Division Champion and a Section Champion. One of its seedlings, a blazing medium orange, heavily ruffled, was Grand Champion and Best Seedling at Lima, N. Y. Sept. 3, 1955, with a score of 89.6. Sally Rose is a top show and commercial prospect and a great seed parent.

EACH — L. \$1.00 Med. 75c Sm. 50c Blts. 10/\$1.00

WHITE RAIN — 500 Class. 72 days. A large snowy white with slightly creamy throat. Its wide open, ruffled blooms have excellent texture, and are well attached with good facing and spacing on a strong, straight, medium sized stem. It is a very vigorous grower with dark green foliage, good bulb production and excellent germination. There may be an occasional misplaced floret. Height 54", 27" flowerhead, 5½" blooms, 20 buds, with up to nine open. It was Best Seedling in Rochester, N. Y. in '53, and Best 500 size Seedling at Penn State Show '54. It won 4 Blue Ribbons at early E.S.G.S. Shows in '55.

EACH — L. \$1.00 Med. 75c Sm. 50c Blts. 10/\$1.00

KODACHROMES — Kodachromes slides of our Glads, a new line of heavily ruffled seedlings from Miniatures to Giants, and other flowers, are available for meetings, etc. There is no charge, except for return postage and insurance. Send your requests in early.

—OUR PREVIOUS INTRODUCTIONS—

BLACK CHERRY — (1948) 554 Class. 85 days. Black Cherry, recognized as the best black red in its class, has won a total of 55 Blue Ribbons in N. Y. State shows since its introduction. It will open up to 9", it does not burn in the field, and is an easy, healthy grower with well placed florets of good texture, slightly wavy, and well attached on a strong straight stem. Black Cherry makes a beautiful exhibition spike and is a very good seed and pollen parent. It has led its class in the National Symposium for four years. It has won Section and Division Championships.

EACH — L. 35c Med. 25c Sm. 2/30c Blts. 10/35c 100/\$2.50

BONNIE LASS — (1951) 468 Class. 85 days. Bonnie Lass is a pure clean orchid lavender with a white blotch. Petals have frilled wavy edges and are of good texture. Attachment is good, facing and spacing excellent. The stalk is slender, very strong and always straight.

EACH — L. 25c Med. 2/30c Sm. 2/20c Blts. 20/25c 100/\$1.50

BRONZE KING — (1946) 580 Class. 95 days. A smooth bronze smoky with a brilliant orange blotch. Excellent textured, long lasting blooms, and a straight strong spike. It grows about 60" tall, 25" fl. hd., 5½" blooms, 19 buds, up to 7 open. We use this extensively for cut flowers and basket work. It is very healthy and nearly a 100% cutter from all size bulbs.

EACH — L. 25c Med. 2/30c Sm. 2/20c Blts. 15/25c 100/\$2.00

CAVALIER — (1953) (Pastel x Porcelain Blue) 568 Class. 85 days to bloom. Cavalier is a giant bluish mauve with lightly frilled edges, and fluted centers in petals of the wide open florets. It is a very vigorous grower reaching a height of 66", with 30" flowerhead and 6" blooms, 20 buds, and 6 blooms open, with 6 in color. The facing and spacing of the florets is excellent as is their texture and attachment. The bulblet production is good, germination easy and excellent.

EACH — L. 40c Med. 30c Sm. 20c Blts. 10/40c 100/\$3.00

DESERT DUSK — (1950) 586 Class. 100 days. Desert Dusk is one of the most beautiful smokies, with a huge expanse of bloom and fine overall habits. The color is smoky slate salmon with a blue overcast, and an orange red blotch. The florets have lightly frilled edges, good substance, are long lasting, and their facing and spacing is excellent. The plant has a strong, straight, medium spike, healthy foliage and bulbs. Bulblet production and germination is fair to good. It grows up to 57" tall, 30" flower head, 6" blooms, 22 buds, and opens 8 in the field. In Empire State Shows it has won 24 blue ribbons and 3 section rosettes, up to 1954.

EACH — L. 30c Med. 20c Sm. 2/20c Blts. 10/30c 100/\$2.50

FANTASY — (1952) The new parrot type Glad. Class 440. (Mutation of Strutter). 90 days. This is named for its resemblance to the Parrot Tulip, Fantasy, as it has a similar combination of coloring and type of bloom. It is a beautiful peach pink with chartreuse spurs on the back of the petals and these spurs carry their exotic coloring through to the front. The texture fluting, and ruffling is exceptionally heavy. The clear, soft, beautiful colors, combined with unusual 24 hour keeping quality, make Fantasy a dream for corsage and arrangements. It grows about the same as standard varieties with a height of 50", with a flowerhead of 22", 5" blooms, 16 to 17 buds, and opens 6 blooms with 7 in color. The buds are pink at the tip, with the base chartreuse, changing to pink as they open. Fantasy's pollen sets seed readily on other varieties; it is prolific and the bulblets grow readily. All size bulbs and even bulblets bloom true to type. This is the original Fantasy and not the one advertised by Kellogg's.

EACH — L. 50c Me. 40c Sm. 25c Blts. 13/50c 100/\$4.00

GARDEN GOLD — (1948) 512 Class. 90 days. This is still the most beautiful and gorgeous deep yellow that we have seen and is probably the best show Glad in its class. The color is pure clean golden yellow with slightly deeper throat, and without any flaking or foreign color. The florets are of good texture, lightly ruffled, and have frilled edges. Facing is excellent and attachment is good, on a tall straight and strong spike. The plant and bulb are both very clean and healthy. We had spikes in our growing field, without irrigation, that grew 67" tall, with 32" flowerhead, 7" blooms, 21 buds, and 6 open.

EACH — L. 25c Med. 2/30 S. 2/20 Blts. 10/25c 100/\$2.00

GARNET GLOW - NOW IN 354 CLASS (1950) (Rich Red x King Lear). 80 days to bloom. Garnet Glow is a clean, glistening garnet red self with no markings. The florets which are ruffled and wavy, with good substance, have excellent facing and spacing, and are very well attached to the slender strong spike. It makes a beautiful exhibition spike that will stand a lot of handling, and does not burn in the sun. Garnet Glow grows about 50" tall, with 24" flowerhead, 4" blooms, 20 buds, and opens 8, with 6 buds in color. Foliage and bulbs are both healthy; bulblet production good, and germination fair. In our Empire State G. S. Shows alone, in 1954 and 1955 it has won 15 Blue Ribbons, 4 Division Champs, 2 Section Champs, 1 Reserve Champ, and one Grand Champion.

EACH — L. 35c Med. 25c Sm. 2/30c Blt. 10/30c 100/\$2.50

GRAPEWINE — (1953) (Arethusa x Black Diamond) 470 Class. 72 days to bloom. This early, heavily ruffled, brilliant clear wine purple self color, with slight white line in throat is a sensation for commercial use, and a beautiful addition to the exhibition group. It grows to the height of 5", with 25" to 29" flowerhead, 5" blooms, 20 buds, 7 open and 4 in color. Substance of the florets is excellent, placement good. Plant and bulb are very healthy, bulblet production and germination is good.

EACH — L. 50c Med. 35c Sm. 25c Blts. 5/25c 100/\$4.00

PORCELAIN BLUE — (1945) 478 Class. 90 day. This is a true Pansy Blue or medium dark violet with a creamy white throat feather. One of the largest near blues with blooms measuring to 6" this past season. It makes a fine cutting, strong spike, always straight and with good placement. Blooms are of excellent texture, plant and bulbs **HEALTHY**, prolific and germination good.

EACH — L. 2/30c Med. 2/20c Sm. 4/20c
Blts. 20/25c 100/\$1.00

RICH CREAM — 406 Class. (1954) 70 days. A pure clean cream with no markings. The ruffled wavy petals are of good substance, wide open, well attached, and are very well faced. It grows uniformly straight and tall and is an easy cutter. We rank it with Friendship as the two best early commercials in our field. Rapid propagator. It grows about 54" tall, with 26" flowerhead, 5" blooms, 19 buds, 6 open. It has 8 buds in color which adds a great amount of color to the spike, making it an excellent commercial with any number open.

EACH — L. 50c Med. 40c Sm. 30c Blts. 10/50c 100/\$4.00

RUFFLED NIGHT — (1947) 454 Class. 70 days. This is one of the most beautiful black reds, with clear glowing blooms of satin sheen. Ruffled, flat open, and heavy textured blooms, with a very small white pencil line on throat petals. Spike is straight and strong, with well placed blooms that do not burn or wilt easily. Bulblet production and germination is excellent. Good winner at the shows.

EACH — L. 25c Med. 2/30c Sm. 2/20c Blts. 20/25c

GENERAL LIST

ACE OF SPADES — (454) (Sisson '50). One of the finest black reds, a shade darker than Black Cherry. Ruffled, strong grower and we have found it to be a fine pollen parent, giving long flowerheads and ruffling to its seedlings.

EACH — L. 25c Med. 2/30c Sm. 2/20c Blts. 15/25c

BERMUDA — (351) Roberts 52. Light salmon pink with white throat. Extremely heavy texture and ruffling, with 8 open. This has been a fine pollen parent for us, producing a Grand Champion Seedling from a cross on Sally Rose.

EACH — L. \$2.00 Med. \$1.50 Sm. \$1.00 Blts. 23c each

BUTTERFLY — (467) (Klein '53). The new "Butterfly" type glad named for its unusual coloring and heavy ruffling. A lavender pink with a reddish blotch on a large yellow zone. Florists love it and it is a great breeder of unusual seedlings.

EACH — L. 75c Med. 50c Sm. 25c Blts. 5/25c

COLUMBIA — (407) (Roberts '51). Lovely creamy white with rose edges. One of the best recent glads and a fine grower.

EACH — L. 23c Med. 2/25c Sm. 4/25c Blts. 40/5c

CRINOLINE — (466) Klein '54. 80 days. An excellent rose lavender, ruffled, very vigorous tall growing healthy plant. We find this a very good commercial, one of the best in its class. It is also a promising seed parent producing some vigorous seedlings in lavender and rose shades.

EACH — L. \$1.50 Med \$1.00 Sm. 75c Blts. 5/75c

Unit Special — 1 L — 1 M — 1 S — 25 Blts. for \$5.00

DAINTINESS — (209) Butt '53. Beautiful ruffled, creamy white with cream throat. A very fine small one. This has been the pollen parent of some very fine miniatures for us.

EACH — L. 50c Med. 35c Blts. 10/25c

EDGEWOOD — (461) (Torrie - Flad '51). Tall medium rose with rose lavender feather. Rugged tall grower with 8 ruffled blooms open. This is an excellent commercial and show variety.

EACH — L. 50c Med. 35c

FIFTH AVENUE — (254) (Hedgecock '51). Glistening deep red with no markings. A great show winner, and the best small red we grow. This and Twinkles were the parents of our Lima Show Miniature Champion Seedling.

EACH — L. 2/30c Med. 3/25c Sm. 5/30c Blts. 50/25c

FLASHLIGHT — (237) (Roberts '53). Ruffled, flashy scarlet with bright yellow throat. One of the finest small ones.

EACH — L. 75c Blts. 4/25c

FRANCESCA — (566) (Tobin '50). One of the most beautiful glads. Very ruffled, healthy, strong growing, opalescent light rose lavender. Blooms late.

EACH — L. 35c Med. 25c Sm. 2/25c Blts. 10/25c

FRIENDSHIP — (442) (Fischer '49). Ruffled medium pink, very healthy and one of the best early commercial glads.

EACH — L. 2/30c Med. 3/25c Sm. 5/30c Blts. 50/25c

GARNET RUFFLES — (352) (Maynard '53). A clear lively, velvety red, ruffled, fine show winner and an excellent medium sized commercial.

EACH — L. 75c Med. 50c Sm. 25c Blts. 4/25c

GLENSHEE — (485) (Klein '55). An unusual smoky, colored like a Tiger Lily, with reddish throat, ruffled, 21 buds on tall plant with 7 open. A favorite with our garden visitors.

EACH — L. \$1.25 Med. \$1.00 Sm. 75c Blts. 2/25c

GWEN — (462) (Pickell '49). A very fine growing light rose and an excellent early cutter. Slightly fragrant. A good show winner.

EACH — L. 20c Med. 2/30c Sm. 2/20c Blts. 15/25c

HARRISBURGER — (552) (Mickle '53). Best of all reds, but a late bloomer. Fine ruffled medium red with no markings. It grows tall with healthy foliage and vigorous plant.

EACH — Med. 35c Sm. 25c Blts. 10/25c

ILLINI WHITE — (400) (Leuchtenberg '55). This is a fine new pure white. Excellent show or commercial prospect. Good height, opening 8 on a nice formal spike. Bulblets made all large bulbs.

EACH — L. \$1.50 Blts. 20c each

JINGLES — (230) (Lins '49). Heavily ruffled, waxy, coral salmon. One of the best miniatures.

EACH — L. 2/30c Med. 2/20c Sm. 4/25c Blts. 25/25c

JULIET — (365) (Rupert '53). A fine new deep rose with white throat blotches. Opens 7 to 9 on a nicely set up spike. Excellent show glad for this medium sized class.

EACH — L. 75c Med. 50c Sm. 25c Blts. 3/25c

KING DAVID — (570) (Carlson '51). Ruffled and fluted clean purple with silver edge. One of the ten best glads and the best purple for show or commercial use. Very healthy, and has the finest habits.

EACH — L. 2/30c Med. 2/20c Sm. 4/25c Blts. 40/25c

LITTLE EGYPT — (153) (Brown). Just as cute as her namesake. Light red with black red blotches. Striking for arrangements and a show winner too.

EACH — Any size 25c Blts. 10/25c

LOOK — (540) (Taylor '53). A very tall husky light pink, the color of Evangeline but much better habits. If you want a big one, this is it.

EACH — L. 50c Med. 35c Sm. 25c Blts. 10/40c

MARGERY — (462) (Melk '53). A large bright cerise rose, early, fine commercial and show glad. Nice propagator.

EACH — Med. 35c Sm. 25c Blts. 4/25c

MOTHER FISCHER — (400) (Fischer '51). Tall ruffled white with excellent habits. One of the best for show or commercial use. This has been a fine seed parent for us, producing some excellent whites and pinks.

EACH — L. 2/30c Med. 2/20c Sm. 4/25c Blts. 25/25c

PELLETIER D'OISY — (290) (Lemoine). An odd green or chartruse, with a red-orange flush at the edges. Fine arrangement variety. Generally scarce.

EACH — L. 50c Med. 35c Sm. 25c Blts. 5/25c

PICOTEE — (211) (Klein '55). A tall ruffled small light yellow, with petal edges of scarlet. Excellent for arrangements or corsage work.

EACH — L. \$1.50 Med. \$1.00 Sm. 60c Blts. 2/25c

PINK DIAMOND — (440) (Fischer '54). Heavily ruffled light pink with cream throat. One of the nice new ones.

EACH — L. 50c Med. 35c Sm. 25c Blts. 6/25c

PIXIE — (210) (Klein '55). Ruffled miniature yellow, winner of many show awards as a seedling. A fine small show glad and an excellent parent for hybridizing.

EACH — L. \$1.25 Med. \$1.00 Sm. 75c Blts. 2/25c

PRINCESS — (466) (Larus '53). One of the finest lavenders, opening easily. It has excellent habits and is one of the best for show or commercial use.

EACH — L. 50c Med. 35c Sm. 25c Blts. 10/30c

PROSPECTOR — (410) (Leffingwell '53). The best yellow we have grown. It has a distinctive amber yellow throat, is nicely ruffled and is a good grower. We had the best yellow seedlings in our experience with this crossed on Meg.

EACH — L. 60c Med. 40c Sm. 25c Blts. 6/25c

RED RADIANCE — (450) (Melk '53). Very clear bright red self color with up to 8 open. Handles very well, a great cut flower variety.

EACH — L. 40c Med. 30c Sm. 20c Blts. 5/25c

REGINA — (520) (Palmer '53). A beautiful ruffled light orange with deeper throat. Very good grower.

EACH — L. 40c Med. 30c Sm. 20 Blts. 15/25c

RUFFLED EBONY — (454) (Fischer '53). Highly ruffled glistening deep maroon, opening 5 on a tall plant. Very dark color.

EACH — L. 35c Med. 25c Sm. 2/30c Blts. 10/25c

SNOW DRIFT — (400) (Fischer '54). This heavily ruffled snow white makes grand champion spikes when well grown.

EACH — Med. 35c Sm. 25c Blts. 10/35c

TONY BOY — (263) (Kundred '54). An odd and striking rosy red, the lower petals white with an edging of rose. Lacinated and recurved blooms. Tall slender spikes with 5 open. We have some very fine seedlings of this with Pixie as the pollen parent.

EACH — L. 50c Med. 35c Sm. 25c Blts. 6/25c

WHITE CLOUD — (500) (Roberts '52). A very white, heavily ruffled glad with beautiful florets. Opens six to seven large blooms on tall spikes. This has given us some excellent white seedlings as pollen parent, with Pure Cream, Pauline, and white seedlings.

EACH — L. 75c Med. 50c Sm. 25c Blts. 4/25c

WHITE TOWER — (501) (Lins '51). Huge, tall, early white with scarlet pink feather in the throat. A very good grower.

EACH — L. 25c Med. 2/30c Sm. 2/20c

Our growing field and seedling test plot is on the farm on Newark Road, one-half mile from Route 21, in Marion. Glads are in bloom from August 1st till frost. Visitors are always welcome at the
